

## PTSCPH5-G130

Polypropylene (CP) Black  
High Melt (25 - <35)

## Technical Data Sheet

Product Code (PTSCPH5-G130)

| Property                | Method/units                 | Nominal | Range / Comments     |
|-------------------------|------------------------------|---------|----------------------|
| Melt Flow<br>(230/2.16) | LTM001 dL/gm                 | 30      | 25 - <35             |
| Colour                  | LTM039 Visual                | Black   | -                    |
| Form                    | LTM039 Visual                | -       | Die Face or Lace Cut |
| Moisture at 104° C      | LTM026 Wt %                  | <0.1    | -                    |
| Granule Size            | LTM009 count/gram            | 45      | 30 - 60              |
|                         | LTM009 granule wt (mg)       | 22      | 33 – 17              |
| Impact Test             | LTM029 Notched Izod<br>Kj/M2 | 4.5     | 4 - <7               |

All Compounds are manufactured using 100% Post-Industrial or Post-Consumer recycled plastics, which have been washed and separated prior to compounding. Hot melt continuous filtration is carried out during our manufacturing process, to produce a high quality product.

The data contained in this Technical Date Sheet are based on our current knowledge. In view of the many factors that may affect processing and application of our products, this data does not relieve processors from carrying out their own tests; neither does this data imply any guarantee of certain properties, nor the suitability of the products for a specific purpose. This Data is for general information purpose only; and does not constitute the agreed contractual quality of the product specification. The latest version can be obtained from our website at [www.ptsltd-uk.com](http://www.ptsltd-uk.com) which supersedes all previous versions. It is the responsibility of the recipient of our products to ensure that any products are suitable for which they are intended.
